For referrers

What to send with a referral

No documents are needed to refer to Forensic Disability Supports Queensland. Send what you have, and we gather the rest on the first call.

Four things are enough for a decision

- [ ] The person's first name, last initial, age and primary disability
- [ ] Where the person is now
- [ ] Your contact details
- [ ] NDIS status: participant, access pending, or not yet applied

How to send it

Refer online at fdsq.com.au/refer
The referral form takes a few minutes.

Call 0439 143 082
Seven days a week. Out of hours, a person answers.

Email admin@fdsq.com.au
Send the referral or the documents, with the person's first name and the first letter of their last name in the subject line.

When to call

Release date within 14 days? Call instead of using the form.

No NDIS number yet? Call and tell us where the access request is up to.

For a matter in the next few days, call.

What happens next

A yes or a no within two hours, seven days a week. If it is a yes, we tell you what we still need. If it is a no, you get the reason.

One more thing for each program

Program	Also send
Leaving custody	Release date, and parole or probation conditions if known
Bail and court	Bail conditions, or the proposed conditions, and the next court date
Forensic orders	Order type, and the current leave or step-down stage
Step-down from secure care	The unit, the current leave stage, and the treating team contact
Supervision orders	The supervision order requirements, or the supervising officer's name
Young people	The youth justice order or bail conditions, and the caseworker's contact
Sole-occupancy homes	The SIL funding held, and any release or court date

Documents that help, if you have them

- [ ] The NDIS plan, with its dates and the funding held: SIL, core supports and community access
- [ ] The order or bail conditions
- [ ] A risk assessment or a risk summary
- [ ] The behaviour support plan
- [ ] The relapse signature and risk formulation summary

Send what you have. We will not hold a referral open waiting for a document.
